

#263 The Austrian Successor – The Austrian Successor Crown Shift at the Revolutionary War (the Bill of Rights), and the Austrian Successor Crown Shift at World War I (to Make the World Safe for Democracy)

By now we have enough understanding to attach the theme of *Crown Shift* to (a) the Revolutionary War events that included the formation of the United States and its government through the Declaration of Independence, the U.S. Constitution, and the ‘Bill of Rights’ Ten Horns, and (b) World War I, the purpose of which from the American perspective was to “Make the World Safe for Democracy.”

Key Understanding: Two Austrian Successor Crown Shifts. There was the Austrian Successor Crown Shift at the Revolutionary War (the Bill of Rights) (depicted below left), and an Austrian Successor Crown Shift at World War I (to Make the World Safe for Democracy).

Obviously, the Revolutionary War and its resulting *Crown Shift* ‘Bill of Rights’ *Ten Horns* were a *beginning* of Making the World Safe for Democracy, while World War I was a gigantic step toward Making the World Safe for Democracy, resulting in the deaths of the four autocracies of the Russian Empire, the Ottoman Empire, **the Austrian-Hungarian Empire**, and the German Empire.

We bolded **the Austrian-Hungarian Empire** (*above*) because a significant point in the Austrian Successor theme is that the Austrian Empire met its literal death due to the events of World War I. There was a shift in world power to America and Making the World Safe for Democracy.

Revelation 13:1 (KJV) And I stood upon the sand of the sea[shore], and saw A [Daniel 7:8 Little Horn ‘Fourth Rome’, and Austrian Successor] BEAST RISE UP OUT OF THE SEA, HAVING SEVEN HEADS AND TEN HORNS, and UPON HIS [Ten] HORNS TEN CROWNS, and upon his heads the name of blasphemy. [The Ten Horns with Ten Crowns

are fulfilled through the Bill of Rights of December 15, 1791, 29 years *less 2 months* after the February 15, 1763, Treaty of Hubertusburg ended the Seven Years' War.]
