

#1254 America as Media-Persia – World War II: The war ends with the Pu-239 Atomic Bomb (continued)

Key Understanding (of this Unsealing #1254): *Below is a repeat of Unsealing #152. It outlines essentially that America was playing the role of a second Media-Persia at the end of World War II through the August 9, 1945, dropping of the Pu-239 atomic bomb.*

#152 The Hammer of the Whole Earth – Daniel 2:39 Media-Persia, and the Pu-239 Nagasaki Atomic Bomb of the Second Media-Persia

The August 9, 1945, Nagasaki atomic bomb was different than the August 6, 1945, Hiroshima atomic bomb. While the August 6, 1945, Hiroshima atomic bomb was nicknamed “Little Boy,” **the August 9, 1945, Nagasaki atomic bomb was a plutonium bomb, looked much different, and was thus nicknamed “Fat Man.”**

The August 9, 1945, Plutonium 239 (Pu-239) Bomb

The Hiroshima bomb was nicknamed “Little Boy”

Plutonium to make the “Fat Man” Nagasaki atomic bomb was produced by bombarding Uranium-238 with neutrons. Plutonium was first produced and isolated during the course of World War II, on February 23, 1941. The discovery was kept secret due to the war. It was named after the planet Pluto, having been discovered

The Nagasaki bomb was nicknamed “Fat Man”

directly after neptunium (like the planet Pluto was discovered after Neptune), which itself was one higher on the periodic table than uranium.

Unlike the Hiroshima atomic bomb, **the isotope Pu-239 was a key component of the August 9, 1945, Nagasaki atomic bomb.** During the Manhattan Project, the first production reactor was built in Oak Ridge, Tennessee. Later, large reactors were set up in Hanford, Washington, for the production of plutonium, which was used in the Trinity test atomic bomb in New Mexico on July 16, 1945. Since plutonium became a key component in modern nuclear weapons, large stockpiles of plutonium were built up by both the United States and the Soviet Union during the Cold War.

238 ‘Head of Gold’
Babylon

Key Understanding (of Unsealing #152): *The 238 and 239 atomic bombs. There were two different types of nuclear bombs dropped on Hiroshima (August 6) and Nagasaki (August 9) in 1945, which we can respectively label U-238 and Pu-239.*

239 ‘Arms of Silver’
Media-Persia

The Lord’s purpose for the two bombs of 238 and 239 is to point to America being a Second Babylon (actually Babylon the Great) and a Second Media-Persia, through its

present day and double fulfillment of Jeremiah 51:20 and 51:21, in conjunction with the verses of Daniel 2:38 (Babylon) and 2:39 (Media-Persia). This is entirely verified and clarified by the fact that the Manhattan Project had its start in rooms 5120 and 5121 in the War Department building.

The reason for America being a Second Media-Persia, in a negative sense, will become clear later.

Daniel 2:38 (Babylon) and 2:39 (Media-Persia)

Daniel 2:38 (KJV) And wheresoever the children of men dwell, the beasts of the field and the fowls of the heaven hath he given into thine hand, and hath made thee ruler over them all. THOU [Babylon] ART THIS HEAD OF GOLD.

Daniel 2:39a (KJV) And after thee shall arise ANOTHER KINGDOM INFERIOR TO THEE [Media-Persia],

Daniel 2:39b (KJV) and another THIRD KINGDOM OF BRASS [Alexander the Great's Greece], which shall bear rule over all the earth.

Jeremiah 51:20 and 51:21

Jeremiah 51:20 (KJV) THOU ART MY BATTLE AXE and WEAPONS OF WAR: for WITH THEE WILL I BREAK IN PIECES THE NATIONS, and WITH THEE WILL I DESTROY KINGDOMS;

Jeremiah 51:21 (KJV) And with thee will I break in pieces the horse and his rider; and with thee will I break in pieces the chariot and his rider;
