**The Democratic Party.** The history of the Democratic Party in the United States goes back to the time of the country's first presidents. Thomas Jefferson, in the late 1700's, started the first political party with the conviction that the federal government was assuming too much power over domestic policy and should be stopped. Jefferson's party became known as the "Democratic" party when candidate Andrew Jackson was elected President in 1828. Jackson was known as a man of the people. He took the party that Jefferson and his elite colleagues had formed and turned it over to the citizens of the United States. The party held its first convention in 1832 to re-elect Jackson to a second term.

## The Democratic Party

The Democratic National Convention created the Democratic National Committee in 1848. It has become the longest running political organization in the world. The Convention gave the committee the job of promoting the party causes between the conventions and also of preparing for each of the next conventions.

On the issue of slavery at the 1860 Democratic Convention, Democrats held that each State had the right to prohibit or to recognize slavery. This position caused Northern Democrats to withdraw from the convention. The Southern Democrats and the Northern Democrats each nominated its own separate candidate for President that year. The election was ultimately lost to Republican candidate Abraham Lincoln.

The Democratic Party has convened every four years since 1832 to nominate a presidential and vice-presidential candidate. From 1832 to 1968, sixteen Democratic candidates have gone on to become President, including James Polk, James Buchanan, Grover Cleveland, Woodrow Wilson, Franklin Roosevelt, Harry Truman, and John F. Kennedy.

**Key Understanding** (which is the same as is in the previous Unsealing): ***Andrew Jackson and the Democratic Party. The modern day Democratic Party is rooted in both Jeffersonian democracy and Jacksonian democracy, but the direct roots of the party are linked more closely with Andrew Jackson than any other man. Prophetically, this is because the Democratic Party – representing democracy – as well as Andrew Jackson, through his***

name and his position as President of the United States and as champion of the common man, are attached to the spirit described in Job 11:12.

The modern day Democratic Party, whose roots are in Andrew Jackson and whose symbol is the donkey (shown *below left*), represents the spirit described in Job 11:12. In other words, the reason why the Democratic Party is symbolized by a donkey is because of its part in the fulfillment of Job 11:12.

*Job 11:12 (KJV) For vain man would be wise, **THOUGH MAN BE BORN** [with a natural birthright to life, liberty, and the pursuit of happiness] **LIKE A WILD ASS'S** [Jack's] **COLT** [son].*
