This Unsealing elaborates upon the reason why the Lord specifically chose the *second* inauguration of Ronald Reagan as the event from which to begin the countdown of 8689 days to the November 4, 2008, election of Barack Obama.

Review: The January 20, 1981, *first* inauguration of Ronald Reagan, which occurred 444 days after the November 4, 1979, start of the Iran Hostage Crisis, and which signaled the beginning of the final phases of America’s role as a *second* (but *counterfeit*) Media-Persia, began America’s build-up of military might that resulted in its attack on the regime of Saddam Hussein in the 1991 Gulf War, eventually resulting in the end of the regime of Saddam Hussein.

Key Understanding: *Reagan’s first inauguration and the end of pretender Babylon the Great; Reagan’s second inauguration and the end of the real Babylon the Great.* The Lord designed Ronald Reagan’s January 20, 1981, *first* inauguration to be prophetically and historically tied to the end of the regime of Saddam Hussein, which was in the role of *pretender* Babylon the Great, which is why He designed Ronald Reagan’s January 20, 1985, *second* inauguration to point to the end of the *real* Babylon the Great, through the 8689 days from Reagan’s January 20, 1985, second inauguration to the November 4, 2008, election of Barack Obama. In fact, the theme of *second* is attached to the entire matter through the number 89 (in the 8689 days), matching up with the theme of *second* pointed to by Reagan’s *second* inauguration.

The overall understanding is that the regime of Saddam Hussein was the *first* to get 86'd, while the *real* Babylon the Great, the United States of America, will be the *second* to get 86'd.
